

MANDATORY: All harvested deer MUST be submitted. A freezer with drop off instructions will be located at Swiss Valley Nature Center (13606 Swiss Valley Rd). Any questions can be directed towards onsite staff or contacts listed below.

City of Dubuque (Bow)- January 26 to February 10

- Antlerless Only
- Licenses can be purchased at Bait Shack or Tri-State Outdoors
- Available to any hunters that qualified for the city hunt in 2018-19.
- Follow special zone rules according to the 2018-19 Deer Management Zone Program.
- Female deer harvested and both checked in at Swiss Valley and reported via the Harvest Report System will count toward an incentive license for 2019-20. Hunters must check their deer at Swiss Valley and do not need to check their deer at the fire station for deer harvested Jan 26 to Feb 10.
- Contact Ross Ellingson with the Iowa Dept of Natural Resources with questions at 563-929-6001.
- Arrangements for sampling can be made by stopping by Swiss Valley or by calling:
 - Curt Kemmerer 563-357-2035
 - Ross Ellingson 563-929-6001
- Please call to report all deer taken. We will not sample fawns (8 months) but still require them to be checked in.
- Keep meat from each deer separate in the event of a positive. The nine digit registration number will be the identifier for each sample and the number necessary to track results from your deer.

Dubuque Perimeter- January 26 to February 10

- Antlerless Only
- Licenses can be purchased at Bait Shack or Tri-State Outdoors
- Follow rules according to Regular Shotgun Seasons 1 & 2
- See allowable straight-walled cartridge criteria in the regulations booklet on pg. 31
- Mines of Spain State Rec Area has specific rules that must be followed. Pamphlets are available at both vendor locations.
